

**Buildings And Grounds Inspections  
(Playgrounds/Playgrounds Equipment)**

The Supervisor of Maintenance shall insure that lead custodians make at least one inspection per semester of the playgrounds and the playground equipment, forwarding a copy of the written report of such inspection to the Supervisor of Maintenance and building principal or site manager. The principal or site manager shall insure that work orders necessary to address identified safety concerns are completed.

School employees and students shall be instructed to report dangerous and/or defective conditions of the grounds and/or equipment to the principal. Playground equipment should be placed on flexible surfaces (dirt, sand, etc.) rather than on paving or asphalt.
